

THE CONFERENCE TOUR

DARE TO DREAM

IMAGINE

six of the nation's most dynamic and energetic youth motivational speakers on one stage, at the same event, inspiring an audience of future leaders, on the concept of a dream. For it is a dream that gives purpose and propulsion to accomplish and achieve beyond the imaginable consciousness of those that will watch the world pass by. Those that dare to dream, will ultimately lead those who do not.

The DREAM NOW Program Conference Tour is a youth leadership conference that challenges high school, and college student participants to dream, while developing critical leadership competencies. The conference is an extension of The D.R.E.A.M Now Program. Students receive a day of training that will provide a lifetime of relevant knowledge.

DREAM BIG

DISCOVER

the power of a dream and the fact that size does matter. Life is too short to have small hopes and low expectations. The DREAM NOW Program Conference Tour forces students to develop their dreams, and prepares them for the success that will accompany the attainment.

DREAM NOW

EXPERIENCE

the power, energy, and excitement as hundreds of students encounter a life changing event that develops a mindset for success, and empowers them to unleash their unlimited power and potential, with the urgency of ,“NOW!”

THE D.R.E.A.M NOW PROGRAM

The D.R.E.A.M NOW Program is an intensive youth leadership program that develops the social, emotional, physical, and intellectual competencies critical to future leadership proficiency. The D.R.E.A.M NOW program provides opportunities for the individual growth and personal development of community youth. It increases self-esteem, self-confidence and interpersonal relationship skills of those who take part. The innovative program curriculum provides a unique fusion of leadership development instruction, interactive activities, and field trips. Each program participant obtains a student workbook, and an invaluable collection of experiences, knowledge and relationships that have transformational effects on their lives.

The D.R.E.A.M NOW Program has three focus areas: Responsibility, Education, and Adaptability. The D.R.E.A.M NOW program takes an aggressive approach to responsibility development through several methods. The program explores social, personal, political, and fiscal responsibility. Students will develop a higher level of each through interactive learning programming.

The D.R.E.A.M NOW program recognizes three components of education: formal education, common sense, and continued exposure to new learning opportunities that enhance and expand current individual knowledge base to stimulate mental, physical, and spiritual growth. The programming efforts in this focus area support learning in all three components.

The final focus area of the D.R.E.A.M NOW Program is designed to develop an adaptive mind. Critical thinking, conflict resolution, problem-solving, and decision-making components guide the programming efforts of this component. Program participants engage in activities that encourage teamwork and test the resilience of their minds.
